- **Call to Customize Super Wide Face Poster Display Frames**

Backing Board Options

The backing board supports a thin-sheet poster, sign, or artwork, keeping the graphic flat and rigid. The options and their benefits are listed below. If you choose **NO BACKER BOARD** and plan to use the frame without installing your own backer, **we strongly recommend mounting your thin printed sheet on any rigid board**. Placing a thin poster sheet into a frame without a backer board will flop.

Economy Corrugated Cardboard Backer

- This brown cardboard backer is an ideal budget-conscious option.

Foam Board (Foamcore) Backer

- Foam Board offers more protection than corrugated cardboard.
- Its white finish preserves the integrity of translucent photos well.
- It is a perfect substrate for dry-mounting objects to the backing.

Acid-Free Foam Board (Archival)

- When preservation is the primary concern, this is the best option for protection.
- It is an ideal choice for all frame sizes displaying items of personal or monetary value.
- Examples: Vintage Family Photos, Expensive Artwork, and Historic & Heirloom Documents

Acrylic Options

We use acrylic for our frame windows. It's half the weight of glass while providing the same clarity. If you choose **NO ACRYLIC** and plan to use the frame without inserting your own acrylic or glass window, **we strongly recommend mounting your graphic on a board to keep it rigid** . Placing a thin poster into a frame without acrylic is not ideal and is prone to damage without this protection.

Economy Clear Acrylic

- Strong, lightweight acrylic provides a clear viewing window
- An economical choice for small to mid-size frames

Premium Clear Acrylic

- Thicker and more durable than the Economy Acrylic
- An ideal choice for mid-size to large-format frames
- Strong, lightweight acrylic provides a clear viewing window

Non-Glare Acrylic

- Reduces glare from natural sunlight or artificial light
- An ideal choice for all frame sizes near windows or under direct overhead lighting

Break-Resistant Acrylic

- This high-impact acrylic is perfect for high-traffic or public environments.

UV Protective (Ultra-Violet) Archival Acrylic

- Protects against fading, yellowing, and loss of value
- An ideal choice for all frame sizes that display items of personal or monetary value.
- Examples: Vintage Family Photos, Expensive Artwork, and Historic & Heirloom Documents
