#### Product Features

Extreme WeatherPlus™ Add-ons enhance our standard outdoor display cases sold across North America. While we still offer our wide range of styles and sizes without these upgrades, some extreme locations need them to better handle local weather conditions. Below are the upgrades we include;

- **Drip-Edge Roof**  
The thin aluminum roof provided has a slight bend at the end to help mitigate water from entering any possible exposure through the door or hinges when closed. The roof comes with a high-bond adhesive tape for mounting onto the top of the metal cabinet. When installing the WeatherPlus™ case, you can decide if you want to add the protective roof or leave it off. You can always install it at a later date or remove it altogether after initial installation.
- **Rubber Gaskets**  
One of the bigger enhancements is the installed rubber gaskets placed on the inside perimeter of the door cavity. Though not waterproof or 100% water-tight, it greatly mitigates water from entering the case.
- **Side Vents**  
Fin Style Vents are installed on both sides of the case. This allows the upper portion of the case to release any condensation buildup and allows for air flow to properly assist in providing a clear view of the contents inside.
- **Additional Weep Holes**  
In addition to the side Fin Vents, we also provide a total of 4 weep holes at the bottom of the case, which allows for any condensation or possible water build-up to release with ease. The bottom holes are positioned slightly in front of the backer board and then behind it, for maximum breathability.
- **Forbo™ Bulletin Board Backer**  
Offered in 15+ Colors, this bulletin board is self-healing, will not crumble, and is constructed to hold up in most weather conditions. Forbo is produced from natural and renewable raw materials. A combination of oxidized linseed oil, rosin, and finely ground cork gives this bulletin board its flexibility and resilience. This combination results in a product with exceptional durability and a sustainable footprint. Its strength and resilience make it an ideal material for pin boards, notice boards, and all other surfaces where ideas and information are exchanged.

#### Post Specifications

- Post Dimensions: 2" x 2" x 96" (8 Feet High)
- Posts are attached to the case through the sides. Pre-drilled holes will be provided on the posts for easy display case mounting
- Posts should be secured at least 3 feet into the ground for proper support.

#### Ordering Options

- Frame Orientation: Portrait or Landscape

- 4 Metal Frame Finishes
- 15+ Forbo Cork Board Backer Colors
- **Door Window: Break Resistant or Tempered Glass**
  - Break Resistant Acrylic: 1/8" thick, lightweight (Standard)
  - 1/4" Tempered Glass for public environments and locations that require this added safety feature. (Upcharge)
    - If chosen we will use our heavy duty door that will change one of 2 dimensions by 1/2". We will contact you if you do not indicate which dimension you would like adjusted in your order notes.
    - The viewable area can decrease by 1/2" or the overall size can be increased by 1/2".

**Landscape Orientation Information**

\*For outdoor poster cases being built for landscape orientation, the following information below will apply.

- The hinge placement will always be on Top (**Door Swings Upward**)
- Prop arms will be added to the unit to support and hold the door.
- The prop arms will extend the door open at approximately 45 degrees.
