We offer THREE LED Lighting Options as detailed below;

TOP LIGHTING (ONE SIDE)
For this option we place an LED strip light on the top side of the interior display case. The light will shine downward onto the interior case, highlighting the contents inside.

TWO LONGER SIDES

For this option we place an LED strip light along the 2 longer sides of the interior display case. The light will shine from 2 sides of the interior case, bringing more highlighting to the contents inside.

INSIDE PERIMETER (ALL 4 SIDES).
For this option we place an LED strip light along the entire Perimeter of the interior display case. The light will shine from all 4 sides of the interior case, bringing more light intensity to the contents being displayed inside.
