Ordering Options

Panel Separators (Included in Display Price):

Select a roller separator length which provides proper spacing between swinging panels so that merchandise displayed on adjacent panels does not touch when the panels are turned.

Fixed Pivot Spacing refers to the amount of space the panels need to be apart on the floor bracket for the panel separators to work properly.

- 1" Panel Separator (2" Fixed Pivot Spacing)
- 2 1/4" Panel Separator (4" Fixed Pivot Spacing)
- 3 5/8" Panel Separator (6" Fixed Pivot Spacing)
- 5 1/2" Panel Separator (8" Fixed Pivot Spacing)
- 6 5/8" Panel Separator (10" Fixed Pivot Spacing)

Steel Pegboard Hooks:

Specially designed for use with our pegboard panels, these 1/8" steel pegboard hooks are flattened so merchandise hangs close to the display surface. Perfect for heavier items, including framed art, mirrors and other three-dimensional merchandise. Package of 100 is included.

Shipping Info

Ships in 6-8 Weeks via Freight Truck

These displays are custom built per order placed. Not all materials are stocked, which may delay the ship date to 8+ weeks.

Sometimes we are able to ship sooner depending on the model, style and colors chosen. Please call us at to discuss your options / requirements, and we will try to accommodate as best we can.
