SEG (Silicone Edge Graphic) Framing System Benefits

- Value Pricing and Low Cost Shipping due to the SEG Frames ability to pack unassembled in tubes
- With minimal framing, the finished look provides a contemporary look that can compliment most interiors in a variety of applications.
- No visible sew lines on your graphics, giving it a clean design for all to see
- Dye Sublimated Printing onto fabric allows for a vibrant intensity of both texture and color
- The tension fabric material is NON-reflective and sound absorbing
- Versatile framing system allow for small, to mid size, to super large format sizes at great price points
- Easy Graphic Changes
- Custom Sizes Welcomed!

Lighting Information

- Each light strip has 5 LEDs, with wide beam angles, for light efficiency and low heat. By default, lights are on both largest sides (4 sides lit is available upon request)
- Lights are 10W each, 850-950 lumens, 6500K color temperature
- Power cord - Single power cord directly from the lightbox. When ordering, please specify electric cord location preference.
- Unit is UL Certified with individually numbered stickers on each segment
- Evenly distributed LED lighting
- Low energy costs
- SEG frame profile has 2 channels. One on the TOP for the Fabric Graphic, and one toward the Back for a White Reflective Backer.
- **Reflective Fabric Backer is included when you purchase a banner from us. This adds brightness to the front graphic by reflecting the LED Perimeter Lights behind it, creating a brightened presentation.**

We Print SEG Fabric Graphics

ENJOY ONE STOP SHOPPING!

We print the SEG Fabric Graphics which will fit into our frames perfectly!

- Our SEG fabric graphics are printed with a Dye Sublimation Printer at 720 DPI for excellent quality. This offers a richness and intensity of both color and texture.
- When ordering a banner from us, we include a White Refelctive Backer Fabric to brighten the LED illumination behind the main graphic being displayed.
- Pricing includes 1/2 hour of CPU time to review your artwork files
- FREE Proofs in PDF format can be sent for approval, once order is placed
- Lead Time: SEG graphics takes 3-5 business days
- We provide the silicone edge and have it sewn onto the perimeter of the graphic, for easy insertion when fitted into our frames recessed grooves
- Artwork must be ready to print in a Hi-Res format.
- **NOTE: Since the SEG Frames ship unassembled, the printed fabric graphic will be rolled up for you to install once the frame is assembled.**
