***Both Combo Options ship in a Separate Box**

Lighting Options

LED LIGHTS - BRIGHTER & LONGER LASTING

Go GREEN with our energy saving LED Lights. Interior LED Lights are positioned on the interior to spotlight your posters, signage, postings, menus, and other printed announcements. LED lights are long lasting, and energy efficient. Choose from Top Lit or Entire Interior Perimeter for LED Lighting placement.

- UL approved LED Strip Lighting
- Cool White LED Lighting
- LED Life: 50,000 hours

**We provide a 3-wire cord attached to the ballast / transformer inside the display case. When installing you should use a licensed electrician / installer to bring power to the display. The installer will best decide where to exit the hardwire provided (we do not provide an exit hole as we feel its best for the installer to decide the best exit point for power supply).

We offer **TWO** LED Lighting Options as detailed below:

TOP LIGHTING (ONE SIDE)

For this option we place an LED strip light on the top side of the interior display case. The light will shine downward onto the interior case,

highlighting the contents inside.

INSIDE PERIMETER (ALL 4 SIDES).

For this option we place an LED strip light along the entire Perimeter of the interior display case. The light will shine from all 4 sides of the interior case, bringing more light intensity to the contents being displayed inside.
