•	ALL snap frame lengths that are larger than 84" will be CUT in HALF and provided with Straight Joiner Keys to connect the two snap
	frame rails together. This will create a seam in your snap frame rail where 2 or more pieces on one side of your frame will flip open. The main reason for creating the seam is to reduce shipping costs. We will ship these chopped snap frame rails via common carrier ground service.
	We can ship any Length up to 120" in <u>FULL LENGTH</u> via Freight Carrier if need be. Please call us with your oversized snap frame dimensions to provide frame & freight costs for these custom displays.
